

Instructor Comments 2012 March 12

- 1) About 19 people signed-up for this class, which is far too many for the interactive format. So I split the class in half & will teach it again next term.
- 2) 10 people in this class was still too many. The original target of ~ 6 to 8 would have been better
- 3) We missed a couple of classes to programmed holidays and two more owing to travel & a prior activity.
- 4) Overall, I feel that we should have met more & done more board-questions. The colloquium exercise went pretty well. The off-topic discussions were pretty interesting for me to learn about this Dept.
- 5) Next time I'll avoid Mondays since many holidays occur then. And I'll schedule 2 slots per week to make room for necessary cancellations.
